

Credit Card Business Insights Report

Prepared by Aman Singh

Transaction Dashboard Findings

- Generated approximately **\$56M+** in total revenue from **650K+** credit card transactions, with nearly **\$8M** earned through interest income, indicating a healthy and profitable credit portfolio.
- **Blue Card** customers contributed the largest share of overall revenue and transaction volume, making them the primary revenue driver across the portfolio.
- **Bills, Entertainment, and Grocery** emerged as the top spending categories, reflecting strong customer dependence on credit cards for everyday and recurring expenses.
- **Swipe transactions** remained the preferred payment method, followed by **Chip** and **Online transactions**, indicating that physical card usage continues to dominate customer payment behaviour.
- Although **Gold** and **Platinum** cards recorded lower transaction volumes, they generated significantly higher revenue per customer, highlighting the profitability of premium cardholders.

Customer Dashboard Findings

- The customer portfolio represents a combined annual income of approximately **\$588M**, demonstrating a financially stable customer base.
- **Male customers** generated approximately **\$31M** in revenue, while **female customers** contributed around **\$26M**, resulting in a relatively balanced revenue distribution across genders.
- Customers within the **40–50 years** age group contributed the highest overall business value through stronger transaction activity and revenue generation.
- **Graduate customers** formed the largest revenue-generating education segment, indicating higher engagement among professionally qualified individuals.
- **Business Owners, White-Collar Professionals, and Government Employees** contributed the largest share of revenue, suggesting that higher-income occupations remain the most valuable customer segments for the business.

Strategic Recommendations

- **Increase Premium Card Adoption:** Target high-spending Blue Card customers with personalized upgrade campaigns to Silver and Gold cards to improve revenue per customer and annual fee income.
- **Strengthen Rewards in High-Spending Categories:** Introduce category-specific cashback and loyalty programs for Bills, Grocery, and Entertainment to increase transaction frequency and customer retention.
- **Focus on High-Value Customer Segments:** Develop personalized marketing campaigns for customers aged 40–50, Business Owners, and White-Collar Professionals, as these segments contribute the highest business value.
- **Accelerate Digital Payment Adoption:** Promote online payment incentives and exclusive digital offers to increase adoption of online transactions.
- **Enhance Customer Retention Programs:** Identify loyal, high-value customers and provide exclusive rewards, credit limit enhancements, and personalized financial products to maximize customer lifetime value.
